Kate Sheppard is back!

New Zealand's favourite daughter is perhaps best recognised as the face of the \$10 note, and now she has her own musical!

"Like Hamilton for the US, That Bloody Woman is the musical NZ didn't know it needed."

The show is framed as a rock concert for Kate and her 'gang' to tell us her story - the story of New Zealand's suffrage movement - and to give us an almighty kick up the ass more than 125 years later!

Tairi Musical invites you to join us for the rocking historical education you never knew you needed. Get your team and your clients together for a great night out that will have you shouting for more.
